ARMADA

Your data. Anywhere. Protected.

MOBILE DEVICE SECURITY & PERSISTENT CONNECTIVITY FOR YOUR TEAMS, ANYTIME, ANYWHERE, ALL THE TIME

Adopt a reliable solution that complies with **Public Safety standards and FirstNet!**

First responders need a system that ensures sensitive data that passes through mobile devices is constantly secured, while offering a persistent wireless connectivity at all times and anywhere they are.

While ensuring your data flows are secured and optimized, Armada keeps your first responders safe with a reliable and secure connection, allowing them the best practice of their profession.

Armada is the only RHEL 8 and FIPS compliant mobile VPN software on the market.

Dedicated to smartphones and tablets using the Android and iOS, Armada offers:

1. Secure remote access to your agency's network resources

2. Data encryption meeting the Public Safety standards

3. Strong and rigorous authentication of connected devices

4. Easy and centralized administration of your device fleet

5. Simple integration, Cloud compatible or on premise deployment

6. Transparent roaming between WiFi and Cellular networks.

FIRSTNET Built with AT&T VERIFIED

FIPS VALIDATED 140-2

CRIMINAL JUSTICE INFORMATION SYSTEM

Trust us to develop a robust cyber connection strategy for your agency by investing in the **proactive Armada mobile VPN**. It's a must to keep your agency safe and secured.

Let's work together to ensure your critical data, applications and systems are truly protected!

ARMADA, THE KEY TO MEET MOBILITY AND CYBER CONNECTIVITY CHALLENGES

WHY CHOOSE US?

- Reduced costs: fewer calls to your IT department, fewer support tickets
- 100% software solution to easily establish of a secure virtual tunnel
- Supports all types of WiFi, LTE and Cellular networks
- A great user experience thanks to a unique user interface
- No user intervention required on Lost connection event
- Fast and reliable access to information
- Increase in officer efficiency
- Compatible with all types of applications
MAIN FONCTIONNALITIES

- Session persistence to ensure constant application connectivity
- Complies with data encryption standards: IPS 140-2, AES 256, FBI CJIS, FirstNet Verified
- Robust device authentication: certificate exchanges
- Group policy management
- Tunnel segmentation (split-tunnelling).
- Public Safety standard grade
- Seamless Roaming

TECHNICAL CHARACTERISTICS

- Solution developed according to open standards: Mobike, IKEv2
- Simplified integration into your architecture and deployment
- Linux Gateway
- Supports multiple hypervisors
- Supports multiple authentication standards (LDAP, Radius, AD, etc…)
- Supports PKI systems
- Compatible with Mobile Devices Management solutions (MDM)

OPERATING SYSTEMS

Armada solution support's VmWare or Hyper-V virtual machines.

Gateway

Hypervisor	VmWare ESXi 5.0+ / Proxmox VE 5.x+
Operating System	RHEL 8 + FIPS

Armada Client

Minimal Android Version	7.x (ARM 64bit only)
Minimal iOS Version	11.4 +

Mult-IP Gateway Compatibility

Armada Client Manager	Mult-IP 5.0.1.+
