# SAMSUNG

# Samsung Interactive Pro WMB Flip Pro Series

Interactive brilliance. Inspired classroom learning.

# Bring inspired learning to life

## What is Samsung Interactive Pro?

Introducing Samsung Interactive Pro, the premium interactive display that brings inspired learning to life. With intuitive writing, comprehensive connectivity, smart solutions and brilliant hardware, Samsung Interactive Pro provides both educators and students with boundless resources and great flexibility to create engaging learning. Experience unlimited learning possibilities with Samsung Interactive Pro.

## **Technology highlights**

# **Touch & Writing**

#### Fast & multi-touch

### Better interaction with exceptionally responsive multi-touch

Samsung Interactive Pro creates a realistic, smooth writing and drawing experience with touch technology boasting 26ms\* latency and 2,048 points of pressure built directly into the display. Industry-best touch latency was achieved by Samsung's proprietary prediction logic which analyzes user's writing patterns. Plus, Interactive Pro enables multi-touch for up to 20 people for enhanced interactivity.

\* When using single touch.

## Intuitive writing & drawing

## Bring ideas to life in an instant

Ideas are brought to life instantly on Interactive Pro with an intuitive user interface. Interactive Pro's unique pen and brush mode provides a real-world writing experience with various options, while flexible erasing requires just a swipe of your finger or palm. The quick tool and palette menu ensure creativity flows and toggle button easily enables a new note layer UI.

#### Seemless connectivity

#### Stay connected from any source

Interactive Pro provides multiple connectivity options, including USB, HDMI, DP and OPS slot. Educators can easily connect any device to access content and display information on a larger screen, as well as connect to any network and other devices through LAN port and wireless screen-mirroring.

#### 3-in-1 USB-C port

### One single port for three functions

Connectivity is enhanced with three-in-one USB Type-C connectivity, enabling screen mirroring, touch control and external device charging (max. 65W), allowing educators to deliver interactive and engaging lessons without any hassle.

#### SmartView+

#### Smart, wireless sharing from multiple devices

With SmartView+, up to 50 devices can be simultaneously connected to the interactive display wirelessly, in addition to enabling multi-view on up to four screens, ideal for larger meeting rooms as well as digitized classrooms.

## AirPlay 2 Share with AirPlay 2

Interactive Pro is integrated with AirPlay 2, allowing educators and students to present on the big screen, increasing visibility and engagement in larger spaces, while ensuring no student misses out on important information.

\* All images are simulated for illustrative purposes. Actual UI may be different.

#### **OPS Slot**

## Use your favorite third-party education solutions

With OPS (Open Pluggable Specification) slot\*, Interactive Pro enables educators to use their third-party education solutions, allowing them to deploy school information systems (SIS), learning apps and tools.

\* Sold separately.

# Solutions to spark new thinking

#### Workspace

#### Access whatever you need, from anywhere

With Workspace secured by Knox, Interactive Pro enables users to easily access remote PC, network drive and other third-party applications such as Office 365, VMWare, MimioComnnect Blended Learning Platform and video call applications\*. This ensures efficiency from any location and an uninterrupted workflow for educators and students.

\* Available apps may vary by region and require service subscription.

#### MimioConnect Blended Learning Platform

# Optimize lesson planning with embedded learning solution

Interactive Pro offers the MimioConnect\* app, an online blended learning platform, providing an extensive catalog of versatile learning content.

\* Service availability varies by region and requires Boxlight subscription.

#### Video call application

#### Engage students wherever they are

Video conferencing\* is supported on Interactive Pro based on the WebRTC (Real Time Communication) API, supporting apps such as Google Duo without the need for additional solution compatibility.

\* Video call application will be available through a firmware update available Q2 2022. Webcam must be purchased separately.
\*\* Supported webcam (9 models): Logitech C930e, C922, C922x, C925E, C920s, C920, C920-CC930C, Logitech Stream Cam.

# Remote content push

## Keep informed with remote management solution

Using Samsung's MagicINFO Remote Management solution, Interactive Pro offers new functionality that pushes content, alerts a nd warnings from the school information system to the display, notifying teachers and students of important updates which can be pushed directly to Interactive displays in every classroom.

\* Requires MagicINFO license to use this service and SIS(School Information Service) should separately built and integrated with MagicINFO.

# Hardware designed to educate

#### 4.0Ch. 40W speaker

#### Engage learners with immersive sound

Interactive Pro offers powerful 4-channel 40-watt speakers front and backside to enhance students' listening experience, so they are more immersed in content when both watching and listening.

## Ambient light sensor Enjoy optimal content in any lighting conditions

The screen of Interactive Pro is equipped with an ambient light sensor to adjust the brightness according to lighting conditions. Whether the classroom is bright or dark, content can be enjoyed to the fullest.

#### Front panel

## Access frequently used menu directly

Use functions and hotkeys faster and easier. Interactive Pro puts the buttons that users most frequently use on the front panel so they can access more easily and intuitively.

#### **Rear handle**

## Easy moving. Less effort.

Move the Interactive Pro display freely anywhere in the classroom. The rear handle helps teachers move the large display easily with little effort.

\* Requires separate standing mount to move which must be purchased separately.

#### Protective screen technology

## Clean screen and minimized damage risk

Samsung Interactive Pro delivers peace of mind with a built-in Antimicrobial Coating which inhibits microbial growth. Plus, the Interactive Pro's display is wrapped in a proprietary shatterproof film, ensuring the screen stays intact in the event of a break.

\* Antibacterial certification: UL2282 which is granted when the antibacterial effectiveness is more than 99%. (Test method(JIS Z 2801): after inoculation of 0.4cc of liquid with bacteria (Escherichia coli and Staphylococcus aureus) on specimen(5cm x 5cm), a sterilized film (4cm x 4cm) is adhered and left in a thermo-hygrostat with a relative humidity of 90% or more at 35°C for 24 hours, and then the efficiency of killing of the bacteria is measured / Test agency: KOTITI Testing & Research Institute)

<sup>\*</sup> To perform its antibacterial function, this product has been treated with the biocidal substance Silver phosphate glass.

<sup>\*</sup> Antibacterial property does not protect users against bacteria and provides no protection against viruses including Covid-19.

<sup>\*</sup> Antimicrobial Coating is on surface of screen only and the effect may vary depending on conditions of use.
