GOVERNMENT SOLUTIONS FROM BROTHER
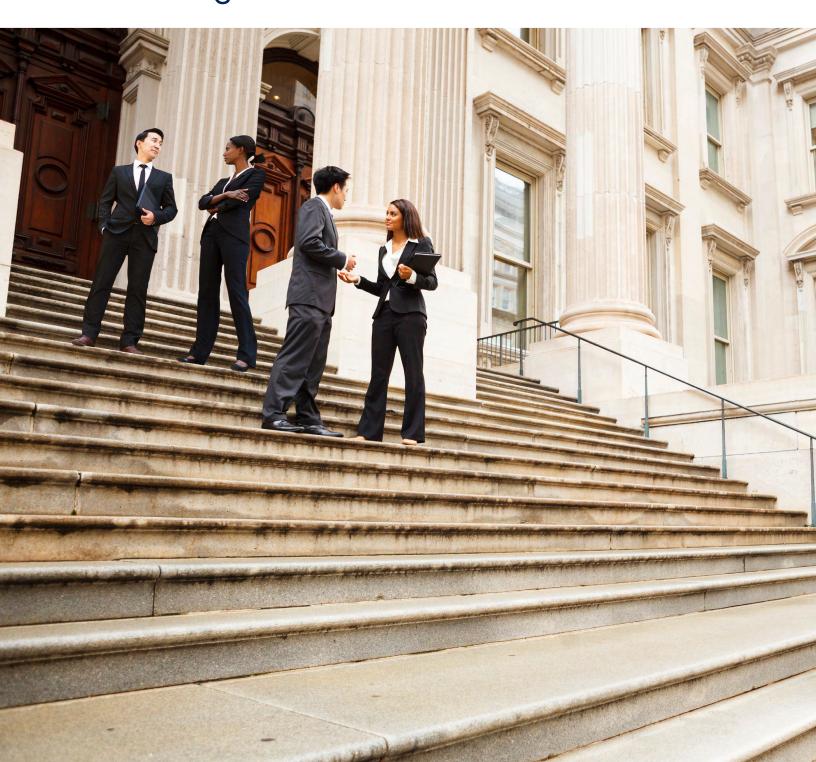

Accessible and Dependable Printing, Scanning, and Labeling for Government

Smart Print Management Designed for Government

No matter where your agency is on the road to digital transformation, paper documents continue to be part of the workflow. The challenge is in integrating paper and digital content, while also streamlining daily operations and maintaining security. Brother offers document management technology and solutions for your government agency that can help optimize print environments, meet the increasing demands for compliance and security, and improve your bottom line.

PROTECT AGAINST INTERNAL AND EXTERNAL SECURITY THREATS

Brother delivers triple layer security features to help safeguard networks, keep printing and scanning devices secure, and protect documents in transit to and from print devices. To provide an added layer of security, Brother has collaborated with API Technologies Corp to offer a Common Access Card (CAC) / Personal Identity Verification (PIV) authentication solution on select Brother devices, which helps to prevent unauthorized users from accessing or distributing unauthorized materials.

FACILITATE DIGITAL TRANSFORMATION

Brother provides products and solutions with cutting-edge mobile device and web-based features that make it easy to connect, print, and share important information virtually anytime, anywhere – quickly, easily, and securely. Enable seamless data capture of reports, records, contracts, and more. Transform paper-based materials to digital documents and enable online sharing via computers, mobile devices, or the cloud.

TAA COMPLIANT PRODUCTS

Brother offers robust and fiscally responsible printers that comply with the Trade Agreements Act (TAA). These models are easy to purchase via a P-Card or from Governmentwide Acquisition Contracts (GWACs) such as GSA, SEWP, and NITAAC.

Printing, Scanning, and Labeling Solutions for Your Government Agency

ADMINISTRATION / BACK OFFICE

· Agency communications

· Docket entries
· Property information
· Audit trails
· Visitor badges

KOFAX

Leverage Kofax ControlSuite within select Brother printers for best-in-class document capture, print management, and output management capabilities, as well as additional benefits in support of digital transformation initiatives.

Brother Can Help Your Government Agency

Empower Teleworking

Help enable telework with smaller, cost-efficient devices that offer the same capabilities (e.g. mobile / cloud support, security) demanded in business environments. Print from and scan to virtually all the major mobile devices[1], operating systems, and popular business cloud services[2], allowing for business continuity and collaboration among remote work environments.

Reduce Costs

Right size your print and capture environment to meet your agency's workflow, budget, and facilities requirements. Select devices provide a low total cost of ownership for a fiscally responsible investment and performance you can monitor and trust.

Capture and Share Information

Brother offers the Barcode Utility value service, enabling documents that have a barcode or QR code (case files, depositions, evidence, etc.) to be scanned, saved, and filed using structured workflows and document routing technology. Save time, improve security, and reduce errors in job separation, file renaming, or folder and destination filing.

1 Requires connection to a wireless network.
2 Requires an Internet connection and an account with desired service.
