

Maximize Mobility for Maximum Visibility

Industry-leading technology solutions
for public sector and healthcare
organizations

Whether your mission is public safety, government agency operations or healthcare services, people count on you every day. And your success is largely determined by your ability to deploy and integrate cutting-edge mobile technology solutions.

As an industry-leading systems integrator, NEWCOM works closely with leading manufacturers like Zebra to deliver real-world solutions that maximize the mobility of your workforce. From efficient data capture and simplified collaboration to better asset management and enhanced information security, we offer solutions that deliver unprecedented connectivity and provide accurate real-time visibility of your total environment. **Because visibility and mobility are essential to the missions you undertake every day.**

Exploring new and emerging technologies to find the best solutions

From the frontline environment to the data center, NEWCOM provides best-in-class IT services that maximize the performance of your mobile solutions.

EFFICIENCY

We provide efficiency services to prepare for what is coming in emerging technologies. And we deliver effective quality work to avoid wasting materials, energy, efforts, money or time.

SYSTEM DESIGN

We provide the critical link between mobile technology and business systems, providing customized solutions that maximize return on your technology investments.

PROJECT MANAGEMENT

With a dedicated customer interface, we manage system design, project requirements, customization and third-party integrations to meet your schedules and milestones.

NEWCOM brings world-class integration services to Zebra's broad portfolio of mobile computers, rugged tablets, printers and barcode scanners.

Your One-Stop Shop for Zebra Mobile Solutions

With mobile solutions that keep pace wherever your workforce goes, NEWCOM and Zebra can help your organization collaborate more easily and capture essential information more accurately. Our goal is to give you the visibility and insights needed for better decision making and faster, more secure delivery of essential services.

Zebra Mobile Computers

THE ULTIMATE TOOL FOR IMPROVING EFFICIENCY

Allow workers to access the information, applications and people they need to get the job done with a Zebra mobile computer. Whether you need rugged handhelds, vehicle-mounted computers or wearable devices, Zebra mobile computers boost performance in any organization.

Zebra Rugged Tablets

PURPOSE-BUILT TO WORK YOUR WAY

Zebra's rugged tablets are thin and lightweight, yet rugged to work wherever you do. With easy-to-deploy Windows or Android options that are far superior to consumer-grade, a Zebra rugged tablet goes wherever you need it and performs exceptionally in whatever tough conditions you encounter.

Zebra Mobile Printers

IMPROVE PRODUCTIVITY AND ACCURACY

Take your label, receipt and RFID printing on the go with wireless printers designed for efficient, high-quality printing wherever you need it. Zebra helps you empower your staff and increase productivity and accuracy with handheld mobile printers at every price point for every industry.

Barcode Scanners

THE TRUSTED LEADER IN DATA CAPTURE

When you choose Zebra 1D and 2D corded and cordless barcode scanners, you get unmatched scanning capabilities that can survive the harshest work environments. In the warehouse, at the retail counter or in the field — with Zebra you can scan anything, anywhere, no matter what.

A Collaborative Approach to Systems Integration

NEWCOM takes system integration further and raises the bar to the highest standards with complete project integration. From system analysis, design, and installation to implementation and system management, our expert project team of engineers delivers turnkey solutions for commercial and public sector markets.

DESIGN & IMPLEMENTATION

- System Design
- Complete Project Management
- Comply With Industry Standards
