

Capability Statement

Tech Forward, Future Ready

NEWCOM

EXECUTIVE SUMMARY

NEWCOM's headquarters is located in the Boston Metropolitan area. Our team of engineers and sales professionals are strategically located across the United States to enable us to address our clientele throughout North America. Our expert project team offers turnkey solutions for commercial and public sector markets ranging from system analysis, design, installation, implementation, project management and raises the bar for the highest standards for customer service and support.

CAPABILITIES:

Discovery

IT solutions tend to organically evolve over time, often resulting in changes from the original plan. Software updates and configurations may not have been maintained or cybersecurity may need to be updated. The design may have drifted from industry best practices, and documentation may not be accurate. It's extremely valuable to step back periodically and evaluate the environment considering your current business needs and current supported technologies available today.

Collaboration

The digital advancement of communication has revolutionized the dynamics of work, lifestyle, recreation, and education. Modern employees anticipate swift responses and comprehensive information to support both individual tasks and work team endeavors. In a contemporary setting characterized by dispersed workforces, limited travel opportunities, tight budgets, and an inundation of information, fostering effective collaboration has become indispensable.

Capability Statement

Project Management

Effective project management is critical for the success of IT projects today. Coordinating and scheduling numerous intricate components are essential for business continuity. Without proper arrangements for hardware, software licenses, or crucial appliance components, deadlines become elusive, jeopardizing project completion.

Industry Experts

Our role is pivotal in bridging the wireless technology gap with business optimization by offering tailor-made, top-tier solutions for your business. Our aim is to enhance our clients' technological investments amidst ongoing advancements. We specialize in efficiency services, equipping businesses to adapt to emerging technologies proactively instead of reactively. Through our commitment to delivering quality work and customer service, we maximize the financial commitment, energy, effort, and time, ensuring optimal outcomes.

Past Performance & Clients

NEWCOM maintains multiple cooperative purchasing agreements, and tribal nation contracts to enhance our support for our clients. Among our longstanding partners are esteemed agencies such as the NYC Department of Sanitation, NYC Department of Transportation, NY Police Department, Boston Police Department, City of Charleston, SC, City of Detroit, US Navy, and the State of Maine.

We currently hold the following [contracts](#):

[Educational Services Commission of New Jersey \(ESCNJ\)](#)

[SAVVIK Buying Group](#)

[Purchasing Cooperative of America \(PCA\)](#)

[BuyBoard Cooperative Purchasing](#)

[Massachusetts Higher Education Consortium \(MHEC\)](#)

[The Interlocal Purchasing System \(TIPS\)](#)

[PEPPM Cooperative Purchasing](#)
