## Technology Solutions at work for you

CONNECTING YOUR BUSINESS TO THE HARDWARE, SOFTWARE, AND PROFESSIONAL SERVICES YOU NEED

Based in the metropolitan Boston area with operations nationwide, we offer technology products, advice, and solutions to solve our customers' challenges in the markets we serve. Some of our markets include: commercial, business enterprises, education, and public sector. We lead the industry with a collaborative approach to systems integration that provides the critical link between technology and business optimization. Our services range from system analysis, design, implementation, and system management. As a result, we provide customized, best-in-class solutions designed to maximize our client's technology investment in the face of on-going technological change.

## PROVIDING A TOTAL END-TO-END SOLUTION

## PROFESSIONAL SERVICES

NEWCOM offers a full range of products and services competitively priced and backed by a highly experienced and skilled team. We partner with leading manufacturers to design the most comprehensive systems based on our clients needs. We have developed solutions across numerous markets and applications. Some of our areas of specialty include:

- Cybersecurity
- Data Center and Infrastructure
- Sensor Technology
- Wireless Communication
- Mobile Technology
- Traffic Management Systems

## PROJECT MANAGEMENT

With a dedicated customer interface, our team of system engineers and configuration specialists determine system design, project requirements, and any third party integration or customization. We pull together the configuration, location, and infrastructure requirements to ensure schedules and milestones are met.

## OUR APPROACH

We ensure dependable solutions that redefine industry standards in conducting assessments and personalized discoveries to optimize your business technology needs.

We redefine the possibilities of technology empowering businesses and municipalities through our unwavering commitment to excellence, creativity, and client-centric solutions. Whether we're creating a total tech solution or recommending a service or product to supplement your project, we understand what it takes to leverage technology to achieve the best results. Together, we can be confident that the solution will achieve what you need to execute your strategy, now and in the future.
