

ANYWHERE CONNECTIVITY

WHEN COMMUNICATION IS MISSION-CRITICAL, CONNECTIVITY MATTERS

ABOUT PLUM LABORATORIES

Plum Laboratories sets the standard for secure, reliable, and portable high-speed data communication equipment at the flip of a switch. The patented and proprietary Plum Case can provide high-speed internet and voice communications from extreme distances in almost any location for up to 100 active devices. The Plum Case family of products ensures your entire team stays connected, regardless of connectivity interruptions, remote locations, or natural disasters.

USE CASES

Business continuity

Protecting against costly downtime

Disaster preparedness

Enabling critical communications

Network capacity

Keeping your team connected

Day one connectivity

Quick, easy access to high-speed internet and voice

SETTING THE STANDARD FOR PORTABLE, SECURE, RELIABLE CONNECTIVITY

VIRTUALLY UNBREAKABLE

with Military Grade Pelican Case

- Each Pelican case is ruggedized, waterproof, dust-proof, crushproof, and impact resistant
- Comes with conditional lifetime guarantee
- Latching system can be padlocked

CONNECT ANYWHERE

with High-Sensitivity Antennas

- Patented and proprietary technology receives signal from extreme distances
- Works in very remote locations
- Molecularly bonded to the case to prevent breakage

HIGH-SPEED INTERNET

with Cradlepoint Gateway

- Uses innovative MU-MIMO for extremely fast internet unaffected by the number of simultaneous users
- Can be used with any cellular provider, even internationally
- Multiple cellular carriers can be used at the same time for load balancing and increased coverage area

POWER FOR DAYS

with Proprietary Plum Power Bank™

- Stays running for 18-72 hours, depending on model and battery options
- Allows devices to be charged by the case itself
- Additional solar panel and car charger can be purchased

Whether you're looking to expand your capabilities, protect against downtime, or ensure the security of your data, the ultra-powerful, secure, and reliable Plum Case family of products ensures your entire team stays connected, regardless of connectivity interruptions, remote locations, or natural disasters.
