WEARABLE, HANDHELD
COUNTER-sUAS KITS

Wearable, Handheld Counter-sUAS Kits for **Single-Operator Drone Defense**

DTIM Kits by Ondas Sentinel equip a single operator with full-spectrum Counter-sUAS capability in a compact, mission-ready package. A complete Detect–Track–Identify–Mitigate kit to defeat hostile drones and drone swarms, in a single-operator kit

Each DTIM Kit option includes a DTI system with your choice of DB4 or DB5 and provides long-range detection out to 25+ km through omnidirectional RF sensing with real-time alerts, and integrates Remote ID, AeroScope tracking, AI-driven identification, 5.2 GHz defeat capability, and TAK display support for complete situational awareness.

KEY FEATURES AND BENEFITS

- ✓ **Detects drones up to 25 km**
- ✓ **Advanced 5.2 GHz defeat capability option with DB5**
- ✓ Omnidirectional antennas with haptic, aural, and visual alerts
- ✓ Remote ID & AeroScope tracking without antenna rotation
- ✓ AI/ML-powered identification with updated drone library
- ✓ Integrated Dronebuster® mitigation with PNT Attack option
- ✓ Built-in LCD, headset, and TAK display support
- ✓ **3,000+ units deployed worldwide**

APPLICATIONS

Soldier-level force protection
Convoy & VIP security
Base, perimeter & critical-infrastructure defense
Border & port security
Public-event and venue protection
Expeditionary and mobile operations
